简介： On April 4, 2018, the People's Republic of China's Ministry of Commerce (MOFCOM) and Ministry of Finance (MOF) separately announced a proposal to levy retaliatory tariffs of 25 percent impacting approximately \$16.5 billion in Chinese imports of agricultural and food products from the United States. The announcement is in response to the recent U.S. announcement of proposed U.S. tariffs on Chinese imports as a result of the U.S. 301 Investigation into the forced transfer of U.S. technology and intellectual property. China's proposed tariff increases in response to the U.S. 301 Trade Action target U.S. soybeans, corn and corn products, wheat, sorghum, cotton, beef and beef products, cranberries, orange juice, and tobacco and tobacco products. The announcement did not include a comment period and does not indicate a date of implementation.

As a result, rice stocks are forecast to rise by 12 percent and exceed 500,000 tons in MY2018/19, equaling almost half of annual consumption. Taiwan continues to be a top

export market for U.S. grains due to stable consumption and feed demand. In 2017 Taiwan was the 6th largest export market for U.S. corn and 7th largest for wheat.
